

The Most Important University Accreditation and Recognition Organisations You Need to Know

1

The World Federation for Medical Education (WFME)

WFME sets global medical education standards; accreditation by a recognized agency is crucial for international recognition.

2

NATIONAL MEDICAL COUNCILS

FAIMER supports WFME by providing resources, including a directory (now part of WDOMS), to verify medical school accreditation.

3

NATIONAL MEDICAL COUNCILS

Key medical licensing bodies: UK (GMC), USA (ECFMG), EU (national bodies with mutual recognition), Canada (MCC). Each verifies qualifications for practice in their respective country/region.

4

GLOBAL DIRECTORIES

WDOMS, run by WFME and FAIMER, lists only accredited medical schools globally, often noting national licensing eligibility in the 'Sponsor Notes'.
